

Lady Ann Stewart's Strathspey

$\text{♩} = 60$

D G A

D A D

D Em A D A D

A D G D

Notes:

A moderate tempo of about $\text{♩} = 60$ is suitable for this tune, although as slow as $\text{♩} = 50$ works.

The original has only straight rhythm and none of the characteristic strathspey rhythms. This is my interpretation, but there are undoubtedly many ways the rhythm could be played.
